EXECUTIVE SUMMARY

The Targeted Urban Areas cover over 25 neighborhoods that are noted for their high unemployment, high drop out rate, high housing density levels, high poverty levels and low median income. In addition, the communities represent some of the oldest neighborhoods in Miami-Dade County. The actions of the Urban Task Force have been focused on tracking the historical and current day allocation of public dollars for economic development within these TUA and the result thereof.

While analyzing the patterns of funding, the Task Force is also empowered to make funding and policy recommendations as stated in Article VI Section 30A-128 of the Dade County Code. Most importantly the Task Force monitors the County's Economic Development programs. In relation to this function, the Task Force is authorized to monitor all large-scale development projects funded by Miami-Dade County as to the inclusion of community members.

The Task Force recently completed in 2003, an Urban Summit which attracted top policy advisors from throughout the nation and Miami-Dade County. During 2004, the Task Force also held seven Business Roundtables which allowed TUA residents and business owners to express their views regarding current economic development practices and policies. In addition to its primary role as a policy review body, the Task Force routinely involves itself in the following activities:

LOAN PROGRAMS

After completing "The Strategic Plan," the Task Force began to focus in on specific priorities. First among them was the issue of available capital for business development. While the Board of County Commissioners (BCC) had just approved the Section 108 revolving loan fund, this resource would be available primarily to established developers. A need still existed for capital within the small to mid-size business community. After surveying the existing loan programs and determining why this market sector remained underserved, we developed policy for a demonstration project. The result was the Stability Loan program, which introduced an abbreviated application process by which established small businesses could apply for loans and use the funds for working capital, expansion or heavy equipment needs. Since implementing this project in the early fall of 2001, 58 completed applications have been reviewed. Twenty-six of those loans, covering Districts One, Two, Three and Seven, have been approved for funding at a value of [\\$884,000](#). This fund was exhausted after seven months of implementation. This fact indicates the depth of the need for such a program, and the efficiency of the program's design and implementation.

As to the Section 108 Revolving Loan Fund, which is administered jointly with the Office of Community and Economic Development (OCED), the initial draw down on the [\\$40,000,000](#) fund took place in August of 2001. To date, through the marketing and underwriting efforts of the Urban Task Force, [\\$24,483,500](#) has been committed to projects in multiple Commission Districts.

GRANT PROGRAMS

COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG)

In 1998 the Task Force began to review Community Development Block Grant (CDBG) applications. It was the strongly held philosophy of the Task Force that greater investment be placed with community organizations in order to achieve greater service efficiencies. As a result, the Task Force has made 110 funding recommendations, valued at **\$17,851,443**, regarding economic development proposals for TUA over the last six years.

COMMERCIAL REHAB INVESTMENT PROGRAM

On September 9, 2000, the Urban Task Force approved the renovation of 13 small businesses within Targeted Urban Areas. The selected businesses originally submitted applications to the Countywide CR program administered by Office of Community & Economic Development but did not qualify. These business investments have been used to improve existing facilities and their surrounding areas. Of the 13 projects, two have not been funded (Bradley's Grocery Store 1 & M & M District Grocery) and eight have been completed.

HISTORICAL RESTORATION

Through the restoration of designated historical sites greater stability was provided to communities. This in turn creates the synergy necessary for further economic development. Recognizing this, and with the support of the Mayor's Office, the Task Force designed and implemented a demonstration project which provided funding for the renovation of historically designated properties within the Targeted Urban Areas. To date over **\$550,000** has been funded for projects in Districts One, Three, Eight and Nine. Not only was this project appealing to the historic preservation community, but also to the commercial development community as well; they saw it as a means of converting deserted buildings into wanted office space. This program has served to complement available loan programs, in the business community.

MOM & POP GRANT PROGRAM

Starting with an initial investment of \$300,000 for two Commission Districts in 2002, the Mom & Pop Small Business Grant Program has allocated approximately **\$2.6 Million** in grants over a three year period. Currently capitalized at **\$1.3 million**, the business grants average **\$5,000** and are now available to all 13 County Commission Districts.

INDUSTRIAL SITE DEVELOPMENT

Within the TUAs are numerous dormant industrial park locations. The Task Force, through a partnership with the Beacon Council, has begun to market these locations to the developer public. One prime location is the Poinciana Industrial Park. In order to increase the viability of the PIC the Task Force committed over \$2,000,000 towards the remediation of the contaminated parcels within the park. This joint effort with OCED and Department of Environmental Resources Management (DERM) was completed in December of 2000. The Task Force continues its support of PIC through financial programs and policy recommendations.

Based on the relatively brief history of this organization and the great expanse of its legislated mission, a significant start has been made. However, greater penetration must be made throughout all TUA. At present an honest appraisal would show that while we are approaching critical activity levels within four of the TUA, the remaining areas require additional analyses and service.

TARGETED URBAN AREAS PROFILES

Urban Revitalization Areas	Unemployment	Family HH below Poverty Line	Income (Median)	Boarded-Up Housing	Non High School Grads
Carol City	11.1%	20.5%	\$26,210	22%	47%
